Checking the remaining limits: *100# - minutes, SMS and MB of Internet traffic.

**Technical limitation – 45 000 minutes per month.

Additional information

1. Tariff plans are available for new connections and transitions.

2. Writing off the monthly subscription fee and setting limits:

- The date of debiting the monthly subscription fee in the monthly period is the date of connection/transition of the subscriber to the tariff plan.
- When connecting/switching to a tariff plan, the monthly subscription fee and limits are written off/assigned in full (not scaled) if there is a sufficient amount on the balance.
- If there are insufficient funds or a negative balance to write off the monthly subscription fee for the tariff, the write-off does not occur, the included traffic limits are not assigned, the subscriber's number balance is not written off as debt.
- The subscription fee is debited once a month from the date of successful debiting of the monthly subscription fee within the tariff plan. The date of debiting the next monthly subscription fee is the date of the last successful debiting of the subscription fee within the tariff plan.
- The next monthly subscription fee is written off and limits are assigned within the tariff between 00:00 and 08:00 (the writing off time is not fixed). To write off the monthly subscription fee in full, the subscriber must have sufficient funds on the balance.
- The subscription fee is debited once a month from the date of successful debiting of the monthly subscription fee within the tariff plan. The date of debiting the next monthly subscription fee is the date of the last successful debiting of the subscription fee within the tariff plan (if the date of debiting the subscription fee was set for the 31st, and in the next month there are 30/29/28 days, then the next subscription fee will be debited on the 30th, or on the 28/29th in February. If the subscription fee under the tariff plan is paid on time (the number is continuously in active status), the next subscription fee will be debited on the 31st).
- If at the time of writing off the monthly subscription fee there are insufficient funds on the balance to write off the fee, the subscriber's number is blocked. The subscription fee is not written off until there are sufficient funds on the balance to write off the subscription fee in full.
- The monthly subscription fee will be written off **immediately** when the balance is replenished with a sufficient amount to write off the subscription fee in full. After the subscription fee is written off, the subscriber number will go into active status and limits will be assigned according to the terms of the tariff plan. Then, the subscription fee will be written off according to the subscriber's new monthly period, i.e. within 1 month from the date of the last successful write-off of the subscription fee within the tariff.

3. Terms of provision of monthly Internet traffic limit in 5G network:

- The volume of 5G Internet traffic issued within the tariff plan is available and consumed in the 5G network;

- When the 5G volume is fully used up, the Internet in the 5G network is charged in accordance with the current terms of the tariff plan;
- When changing the tariff plan, the volume of 5G Internet traffic is reset to zero. When switching within the “Bor” tariff line (Bor 60, Bor 80, Bor 110, Bor 160), the volume of 5G Internet traffic is reset to zero and a new volume of 5G Internet traffic is assigned, corresponding to the tariff plan;
- Internet traffic conditions do not apply to subscribers in roaming;
- Due to the provision of additional 5G Internet traffic, the 5G service is provided automatically on the “Bor 60”, “Bor 80”, “Bor 110”, “Bor 160” tariffs.
- 5G internet traffic volume is not available in blocked status;
- When distributing the Internet through a smartphone or other device access point, the assigned 5G Internet volume will only be available if the generated Internet requests require significant amounts of data transfer and high Internet speed.
- When connecting via proxy servers or VPN, Internet traffic consumption will not occur within the limits of the issued 5G volume.

4. Internet traffic in roaming is available in the network of mobile operators: Megafon in the Russian Federation and Tajikistan, Tele2 in the Republic of Kazakhstan and MegaCom in Kyrgyzstan.

Internet traffic worldwide in roaming is available in the countries indicated on the page.

The terms of Internet traffic in roaming provided within the tariff do not apply when distributing Internet traffic through an access point (Hotspot).

5. Unlimited Internet traffic conditions for OVVA TV:

- When switching to “Bor” tariff plans, access to the following subscriptions within the “OVVA TV” service is provided by default:

Tariff plan	Tariff plan including subscription
Bor 45, Bor 50, Bor 60, Bor 80, Bor 110	“OVVA TV” unlimited access to UzMTRK channels (state TV channels of Uzbekistan)
Bor 160	“OVVA TV MAX” subscription

- If the subscription fee for the tariff has not been written off, then access to the corresponding TV channels within the “OVVA TV” service is limited.
- The “OVVA TV” service is available only in the Republic of Uzbekistan.
- The “OVVA TV” service is available both via the Ucell mobile network Internet and in the networks of any other operator or Internet provider, as well as via any Wi-Fi. Payment for Internet traffic of another operator or Internet provider will be taken into account according to their terms.
- When using “OVVA TV” through proxy servers, VPN or intermediary sites, the cost of traffic is paid according to the cost of Ucell-Internet under the terms of the tariff plan, or traffic is debited from the balance of the existing Internet package provided to all destinations;
- To view included TV channels online, you must have access to the Internet.
- Due to the provision of default access to TV channels within the “OVVA TV” service, individual purchases of paid subscriptions with access to TV channels are limited on “Bor” tariffs:

Tariff plan	Paid subscriptions not available for connection
Bor 160	All types of subscriptions “OVVA TV”, “OVVA TV +”, “OVVA TV MAX”

- Access to viewing TV channels is provided in the Ucell and OVVA applications, as well as on the ovva.uz website, subject to payment of the subscription fee according to the tariff.
- You can read the terms of the OVVA TV service [here](#)
- When changing the tariff plan from the “Bor 160” tariff plan to other tariff plans, access to “OVVA TV Max” subscription provided within the “Bor 160” tariff plan is cancelled.
- The conditions for unlimited Internet traffic provided within the framework of services included in OVVA TV do not apply when distributing Internet traffic through an access point (Hotspot) of a smartphone or other devices.

6. Yandex Plus this is a joint subscription to Yandex Music, Kinopoisk, Yandex Books, as well as cashback in points in Yandex Go.

Subscribe to Yandex Plus:

Activate Yandex Plus to start enjoying all the benefits of the subscription. To do this:

- Follow the link: <https://plus.yandex.uz/ucell>
- Enter your phone number
- Log in with Yandex ID

Immediately after this, you will get access to Yandex Music, Kinopoisk, Yandex Books and cashback in Plus points in Yandex Go.

Terms:

- Access to Yandex Music, Kinopoisk, Yandex Books services and cashback in Plus points in Yandex Go, which are part of Yandex Plus subscription, is provided on “Bor 80”, “Bor 110” and “Bor 160” tariff plans, upon successful debiting of the subscription fee for the tariff plans.
- When authorizing in Yandex Music, Kinopoisk, Yandex Books and Yandex Go services, which are part of Yandex Plus subscription, you must use the Yandex ID, to which the subscriber number is linked on one of the following tariff plans: “Bor 80”, “Bor 110” and “Bor 160”. The completed subscription must be activated on the page plus.yandex.uz/ucell
- In case of successful debiting of the subscription fee within the tariff plan, the subscription will be assigned with a validity period of 30 days from the date of its assignment. If the funds on the personal account are insufficient to pay the subscription fee for the tariff plan, the subscription to the services automatically goes into the payment waiting mode and will be automatically extended for the next 30 days as soon as the subscriber's account has sufficient funds to pay for it. In this case, the subscription validity period (in case of successful debiting of the monthly fee) will be set from the date of the last assignment.
- Within the framework of “Bor 80”, “Bor 110” and “Bor 160” tariff plans, when using the Yandex Go, Yandex Music, Yandex Books and Kinopoisk applications, Internet traffic is not consumed from the active Internet packages within the tariff.
- When using Yandex Go, Yandex Music, Yandex Books and Kinopoisk applications in roaming, Internet traffic will be charged according to zonal roaming tariffs.
- When using services included in Yandex Plus through proxy servers, VPN or intermediary sites, the cost of traffic is paid according to the cost of Ucell-Internet under the terms of the tariff plan, or traffic is debited from the balance of the existing Internet package provided to all destinations.
- To avoid wasting Internet traffic after connecting the service, you must end the Internet session by disabling mobile data. Then enable the Internet session again.
- A subscriber may have several active subscriptions to the Yandex Plus service. For example, a subscriber previously activated a subscription, payment for which is made through the subscriber's bank card. In this case, the subscription, which is paid for by other methods, is managed on Yandex Plus service website.
- When switching to one of “Bor 80”, “Bor 110” or “Bor 160” tariff plans, the separate “Yandex Plus” service (Activated from Ucell network: “Paid subscription” and “Free subscription for 90 days”) is automatically disabled, while all the terms of the Yandex Plus service remain available until the end of the disabled subscription. At the same time, when using Yandex Go, Yandex Music, Yandex Books and Kinopoisk applications Internet traffic will not be charged on “Bor 80”, “Bor 110” and “Bor 160” tariff plans. If the subscriber switches to another tariff plan (not “Bor 80”, “Bor 110” or “Bor 160”), Internet traffic will be charged according to the subscriber's tariff plan, or the traffic will be debited from the balance of the existing Internet package provided to all destinations.
- In case of switching to another tariff plan (not “Bor 80”, “Bor 110” or “Bor 160”), all conditions for the provision of the Yandex Plus service are maintained until the end of the disabled subscription. In this case, when using Yandex Go, Yandex Music, Yandex Books and Kinopoisk

applications Internet traffic will be charged according to the subscriber's tariff plan, or traffic will be debited from the balance of the existing Internet package provided in all directions.

- When switching within the “Bor” tariff line (“Bor 80”, “Bor 110” and “Bor 160”), or using the “Restart” service (on the “Bor 80”, “Bor 110” and “Bor 160” tariff plans), access to services included in Yandex Plus is reset and new accesses are assigned that correspond to the tariff plan.
- Connection of a separate service “Yandex Pus” (“Paid subscription” and “Free subscription for 90 days”) is not available on “Bor 80”, “Bor 110” and “Bor 160” tariff plans.
- Not the entire content catalog on the Kinopoisk service is available as part of the Yandex Plus subscription.
- Access to Yandex Books service for subscription users is provided in accordance with the service rules.
- Yandex Go: as part of the subscription, users are provided with cashback points for trips at Comfort and Business tariffs booked using the application.
- Detailed terms of Yandex Plus subscription: Yandex Plus subscription terms (https://yandex.ru/legal/yandex_plus_conditions/)
- When re-registering a number, the Yandex Plus subscription must be activated on the page: plus.yandex.uz/ucell
- Smartphones by default use mobile traffic in the background: for system updates, application updates, for synchronization of widget data (weather, calendar, etc.) and social networks, as well as for analytics counters (Google, google-analytics.com, googletagmanager.com, gstatic.com, stats.g.doubleclick.net). Internet traffic to these destinations is charged according to the cost of Ucell-Internet under the terms of the tariff plan, or traffic is debited from the balance of the existing Internet package provided for all destinations.
- The conditions for unlimited Internet traffic provided within the framework of services included in Yandex Plus do not apply when distributing Internet traffic through an access point (Hotspot) of a smartphone or other devices.
- **Yandex Plus support service: +998 78-333-87-91**

7. Terms of provision of unlimited night internet and unlimited internet on weekends.

- Unlimited night traffic is available from 01:00 till 06:59:59. For the service to work correctly, you must interrupt the session at 01:00 and at 07:00 and then resume the session.
- Unlimited Internet on weekends is available only on Saturday and Sunday.
- The conditions of unlimited Internet traffic provided within the tariff do not apply when distributing Internet traffic via a hotspot of a smartphone or other devices.

8. Blocking conditions:

- LIVE ZERO: with a zero balance, all communication services are available to you!

- the number is blocked with a positive balance, in case of insufficient funds on the balance at the time of writing off the monthly subscription fee for the tariff plan, or a negative balance, in case of the presence of corresponding additional services;
- in the blocked status, changing the tariff plan is not available;

If the subscriber has a sufficient amount on his/her balance to pay the subscription fee for another available tariff plan + the cost of switching (if switching to the tariff plan is paid), the tariff can be changed in all available ways.

- in the blocked status, the subscriber has access to the remaining limits of previously purchased monthly Internet packages until their expiration date (in case of a remainder).

- You can read the general conditions for staying in a blocked status [here](#)
(in case of successful repayment of the SF)

9. Monthly limits within the tariff plan are assigned only after the monthly subscription fee for the tariff for the current period has been successfully written off. The remainder of the monthly limits assigned in the current period are not carried over to the next period.

- To avoid misunderstandings, we recommend you to top up your balance in advance with a sufficient amount to write off the subscription fee in full and check the assignment of limits for the tariff plan using the Ucell mobile application or USSD request *100#.

- When the monthly limits within the tariff plan are used up, calls and SMS are charged according to the cost for destinations in excess of the limits under the terms of the tariff plan.

- When the monthly Internet traffic limit for all directions within the tariff plan and additional Internet packages is used up, Internet access is suspended. In this case, the subscriber receives an SMS with a link to resume Internet operation. To continue using the Internet, the subscriber must select the option according to which he will continue using the Internet:

- Update tariff limits (connect the “Restart” service);
- Buy an Internet package;
- Connect mobile Internet at the cost of 1 MB over the limit
- Change tariff plan

**** If the subscriber selects the option to use mobile Internet at the cost of 1 MB over the limit, and then purchases a Monthly Internet package, then upon expiration of the additional package limits, the Internet will be used at the cost of 1 MB over the limit according to the terms of the tariff plan until the next subscription fee is debited according to the tariff.

The subscriber can also independently activate the option “Connect mobile Internet at the cost of 1 MB over the limit” using the USSD request *727#.

When blocking access to the Internet, in order to use payment system applications, the subscriber must disable the data transfer mode for correct operation in offline mode.

Please note:

- When switching within the “Bor” tariff line, if the subscriber switches to a higher tariff, the previously assigned limits for the previous tariff plan are summed up (except for unlimited minutes, roaming traffic, unlimited traffic on weekends and unlimited night Internet) and are available for use until they are used up or until the end of their validity period according to the previous tariff.

- When switching within the “Bor” tariff line, if the subscriber switches to a lower tariff, then the previously assigned limits for the previous tariff plan are reset to zero.

- When switching from other tariff plans to tariff plans of the “Bor” line, previously assigned limits for the previous tariff plan are reset to zero.

- To avoid misunderstandings, before using the limits within the tariff plan, we recommend you to first check the assignment of limits under the tariff plan using the USSD request *100# or through the Ucell mobile application. Before assigning limits for minutes, SMS and MB, charging is carried out according to the cost for directions above the limits according to the terms of the tariff plan.

10. Calls to information and reference services of JSC “Uzbektelecom”, information and entertainment services of content providers and international destinations do not consume the minutes provided under the terms of tariff plans.

10.1 Services of JSC «Uzbektelecom». Tariffing is made for the connection, according to the cost specified in the table via https://ucell.uz/ru/services/jsc_uzbektelecom (if there are limits, the limits are not used. The write-off will be made from the subscriber's balance according to the cost in excess of the limit under the terms of the tariff plan). The cost of a minute of a call is charged according to your tariff plan per minute, starting from the 1st second after the connection, rounded up to a full minute. Subscribers can read more here https://ucell.uz/ru/services/jsc_uzbektelecom

11. Limits provided within tariff plans are not available for subscribers in roaming.

12. Subscribers of “Bor” tariff plans **have access** to the following services: “Number freeze”, **New monthly Internet packages**, “TAS-IX Internet packages”, “Al Chiroq” promotion (MB and SMS packages only), “Traffic+”.

- 13.** Subscribers of “Bor” tariff line **do not have access** to the following packages: “Convenient minutes”, “Convenient within network” and “Convenient within Uzbekistan”, Daily and Weekly Internet packages, “Daily SMS packages”, “Monthly 4G Internet packages” (and similar packages within the "We Appreciate You" loyalty program), “Night Internet”, “Night Internet packages”, “Try 4G at Night”, “MEGA BOOM Internet”, “Ordered package”, “Hourly Internet”, “Maximum Access” and “Megabytes Are Returning” services, the “We Appreciate You” and “U+” loyalty programs.
- 14.** When switching to a tariff line, unavailable services and packages are disabled (except for Monthly Internet packages), while the remaining limits, as well as the validity period of services, are preserved according to their terms.
- 15.** **Until December 31, 2026**, the “You’ve got a call” service is provided automatically on a free basis upon new connection or transition to tariff plans of the “Bor” line.
- 16.** Terms of “OVVA TV”: Does not consume traffic. When switching to other tariff plans, the “Ucell TV” option is canceled.
- 17.** When switching within the “Bor” tariff line, unlimited minutes within Uzbekistan, previously received under tariff plans with the specified conditions, become unavailable.
- 18.** For subscribers using Internet services, we recommend to familiarize with [Additional information about the system of reserving funds](#) and the features of the 4G network.
- 19.** In order to avoid fraudulent connections, the Company reserves the right to terminate the Agreement with the subscriber if the outgoing traffic within 30 days after connection is close to 0.

Terms of “Restart” service

- 1.** The “Restart” service is activated using a mobile application or USSD *222#.
- 2.** The “Restart” service is available to subscribers in active status.
- 3.** The “Restart” service allows the subscriber to independently activate the monthly subscription fee and receive monthly limits according to the terms of the tariff plan. After activating the “Restart” service, the subscriber's monthly period is updated according to the date of the last successful activation of this service.
- 4.** After activating the “Restart” service, the monthly subscription fee in the amount of the full cost is debited from the subscriber's balance and full monthly limits are assigned within the subscriber's tariff plan. Then, the subscriber's monthly subscription fee is debited according to the subscriber's new monthly period.
- 5.** To connect the service, the subscriber's balance must have a sufficient amount to write off the subscription fee for the tariff in full. After activating the “Restart” service, the subscription fee will be written off and the limits will be assigned in full for the tariff.
- 6.** The remaining limits (SMS and MB), previously assigned within the tariff plan, are reset upon successful activation of the “Restart” service.
- 7.** On the day of the monthly subscription fee debit for the tariff plan, the “Restart” service is not available for activation.
- 8.** You can use the “Restart” service only once a day (from the beginning of the current day, from 00:00 to 23:59).

Note:

Smartphones by default use mobile traffic in the background: for system updates, application updates, for synchronization of widget data (weather, calendar, etc.) and social networks, as well as for analytics counters (Google, google-analytics.com, googletagmanager.com, gstatic.com, stats.g.doubleclick.net). Internet traffic to these destinations is charged according to the cost of Ucell-Internet under the terms of the tariff plan or the traffic is written off from the balance of the existing Internet package provided for all destinations.
