1. The tariff plan is available only for new subscriptions in the Company’s service office at the Airport.
2. The tariff plan is available for new subscriptions upon provision of a valid foreign citizen’s passport.
3. When a new tariff plan is connected, tariff plan allowances are provided immediately in full and subscriber's balance turns negative. The allowances become available for use right after activating the subscriber number.
4. If the subscription fee is not paid within first 3 days, communication services will become unavailable as well as the ability to purchase/activate additional services. Incoming/outgoing calls are blocked, except for outgoing calls to IVR and emergency numbers.
5. If the subscription fee is not paid within 73 days after connection, the subscriber’s number is terminated and the Agreement is terminated unilaterally.
6. Writing off the monthly subscription fee and assigning limits:
  - The date the monthly subscription fee is deducted in the monthly period is the date the subscriber connects to the tariff plan.
  - With a new connection to the tariff plan, the monthly subscription fee and limits are deducted/assigned in full (not scaled) if there is a sufficient amount on the balance.
  - If there is a lack of funds or a negative balance to deduct the monthly subscription fee according to the plan, the deduction does not occur, the limits of the included traffic are not assigned, the balance of the subscriber's number is not written off in debt.
  - The subscription fee is deducted in the interval of once a month from the date of successful deduction of the monthly subscription fee of the tariff plan. The date of debiting the next monthly subscription fee shall be the date of the last successful deduction of the subscription fee of the tariff plan.

- Regular monthly fee deduction and limit assignment within the plan is performed from 00:00 till 08:00 a.m. (deduction time is not fixed). In order to write off the monthly subscription fee in full, the subscriber needs to have enough money on the balance.

- The monthly subscription fee is debited in the interval of once a month from the date of successful debiting of the monthly subscription fee according to the tariff plan. The date of debiting the next monthly subscription fee is the date of the last successful debiting of the subscription fee according to the tariff plan (if the subscription fee was charged on the 31st day, and in the next month there are 30/29/28 days, then the next subscription fee will be charged on the 30th day, or on the 28th/29th day in February. If the subscription fee is paid on time according to the tariff plan (continuous presence of the number in the active status), the subsequent debiting of the subscription fee will be on the 31st day).

- If at the time of deduction the monthly subscription fee there is not enough money on the balance to deduct the fee, the subscriber's number is blocked. The subscription fee is not deducted until there is enough money on the balance to deduct the subscriber fee in full.

- The monthly subscription fee will be deducted immediately when the balance is topped up by a sufficient amount to deduct the subscription fee in full. After the monthly fee is deducted, the subscriber's number will switch to active status and the limits will be assigned according to the terms of the tariff plan. Further, the subscription fee will be deducted according to the new monthly period of the subscriber, i.e. within 1 month from the date of the last successful deduction of the subscription fee for the plan.

7. Monthly limits within the terms of the tariff plan are assigned only after the monthly subscription fee of the plan for the current period is successfully deducted. Monthly limits within the terms of the tariff plan are provided for 1 month from the date of assignment. In case of **timely payment** of the subscription fee of the tariff plan, the remaining monthly limits are available in a new period and are valid until they are completely spent or until their expiration date.

- If the monthly subscription fee is not deducted on time, the unused balances of the limits in the previous billing period are reset to zero.

- To avoid misunderstandings, we recommend you to top up your balance beforehand by the amount sufficient for deduction the subscription fee in full and check the limits of the tariff plan by using \*100# USSD request.

- In the blocked status, the subscriber has access to the remaining limits according to the terms of the monthly Internet packages until their expiration date (in case of balance).

- When the monthly limits of the tariff plan are spent, calls and SMS are charged according to the cost for directions in excess of the limits according to the terms of the tariff plan.

- If the monthly Internet traffic limit according to the tariff plan and additional Internet packages are used up, access to the Internet is suspended. In order to continue using the Internet, the subscriber must select the option according to which he/she will continue to use the Internet:

- Buy internet package;
- Connect mobile Internet at a cost of 1MB over the limit\*

\*If the subscriber chooses the option to use mobile Internet at a cost of 1MB over the limit, and then buys a Monthly Internet package, at the end of the limits of the additional package, the Internet will be spent at a cost of 1MB over the limit according to the terms of the tariff plan until the next subscription fee is charged.

**“Connect mobile Internet at a cost of 1 MB over the limit” option can be connected independently by the subscriber via USSD-request \*727#.**

**When blocking access to the Internet, to use the applications of payment systems, the subscriber must disable data transmission mode for correct offline operation.**

Please note:

- If the subscription fee is charged in a timely manner on the set date and limits are assigned for the tariff plan for a new period, the previous limits (if there are any), are transferred to the next period and are available for use until they are spent or until their expiration date.
